One of us - Paul DeSanto

Paul DeSanto
Product Specialist

Paul has been working in the disability equipment industry for more than 20 years. He has extensive experience with wheelchair set up for all types and levels of disability. His high level of commitment is unmatched with his attention to detail in making sure all clients are set up correctly and comfortably.

The clinical assessments within the SEAT department, are carried out by our experienced Product Specialists either in the home, school, facility or our on-site GMS clinic located in Melbourne. This service provides a more hands on approach at assessment time to ensure appropriate selection of equipment for mobility, postural support and pressure relief is met.

Our Rehabilitation Technicians support the SEAT team in manufacture, assembly, and with any customised equipment or modifications that may be required.

With our experience team and individuals like Paul DeSanto, we're able to supply the worlds best products available today in order to achieve best possible outcomes for our clients. So, why not call us today....
