

Invacare® | **PEGASUS METRO**

The perfect mix of comfort,
safety and reliability

Whether you enjoy a quick trip to meet friends for food or taking a short journey to the local shops, the **Pegasus METRO** is the ideal choice to take you there.

The new, ergonomically designed **Pegasus METRO** has been designed from the ground up to focus on key aspects important to both new and seasoned scooter users. As a result, it is equipped with numerous features to ensure users experience a safe, easy and enjoyable ride.

The **Pegasus METRO** is the perfect mix of comfort, safety and reliability!

Controlled and sturdy drive

The suspension system on the compact **Pegasus METRO** has been designed to navigate a variety of everyday surfaces and terrains, allowing you to relax and enjoy a controlled, sturdy drive in comfort. It's powerful motor, combined with 11" pneumatic tyres, will take you smoothly and safely over obstacles or uneven ground.

Safety as standard

In addition to a unique lighting system, the **Pegasus METRO** is equipped with an electronic speed reduction feature that automatically reduces speed round bends, ensuring safe, comfortable manoeuvres at all times. Furthermore, a two-step disengaging lever prevents the scooter from free-wheeling if it is knocked out of drive mode. These features, combined with extensive German independent TÜV laboratory testing, ensure that safety comes as standard with the *Invacare* **Pegasus METRO**.

Simplicity and serviceability

By using an array of quality components, we have made the **Pegasus METRO** both reliable and easy to service. Simply remove the top cover to access batteries, electronics, motor and cables. Electronics and the motor are protected from corrosion and water which safeguard the vital workings of the scooter against dirt preventing any unnecessary malfunctions.

Features and options

Finite tiller movement

Users can easily adjust the tiller with a lever to suit their needs.

Ergonomic steering

Our ergonomically designed steering system makes for easier, more responsive control.

Hand brake

Ensures immediate braking if required.

Brake light

Clear, bright brake lighting warns people that the scooter is slowing down.

Disengaging lever

Two step disengaging lever prevents the scooter from accidentally free-wheeling.

Auto-speed reduction

Automatic speed reduction reduces speed around bends for added safety.
